TEMAM AWELU  
SENIOR SOFTWARE  
ENGINEER

TO :

10 JANUARY 2025

**university of Florence**

P.za di San Marco, 4, 50121 Firenze FI, Italy

Dear Admissions Committee,

I am writing to provide my strong recommendation for Lalise Fufi Namera's application to School of Mathematical, Physical and Natural Sciences, at University of Florence. As a Senior Software Engineer at Awash Bank, I have had the privilege of working closely with Lalise, who serves as an Associate Software Engineer on our team.

From the moment Lalise joined our team, she demonstrated exceptional technical ability, a strong work ethic, and a deep sense of humility. Her willingness to learn and collaborate has made her an indispensable member of our department. Despite being relatively new to the field, Lalise quickly adapted to the complexities of our projects, consistently delivering high-quality work while meeting tight deadlines.

One of Lalise's most impressive qualities is her problem-solving ability. During a recent project involving the integration of a complex financial API into our system, Lalise not only mastered the intricacies of the API but also identified and implemented optimizations that significantly improved system performance. Her keen attention

I have no doubt that Lalise's intellectual curiosity, dedication, and drive will make her a valuable addition to University of Florence graduate program. She has consistently demonstrated a capacity for growth and excellence, and I am confident that she will bring the same level of commitment and passion to her studies.

Please feel free to contact me if you require further information or have any questions. Sincerely,

*Temam awelu*
